## A New Resource to Help Your Company Reduce Costs and Improve Safety

On September 17th, 2015, the U.S. Bureau of Labor Statistics released the *Census of Fatal Occupational Injuries Summary, 2014*. Of particular concern, this summary notes that in 2014...

- The number of fatal work injuries in the construction industry increased by 6%
- Over half of all contractors were working in construction occupations when fatally injured
  - The most common causes of death were: falls to a lower level, and being struck by an object or equipment
