The public puts its trust in health care facilities in a way that it does with few other organizations. When things go wrong, these facilities need to show that they are taking every step to protect patients and the community at large.

During this Webinar we will provide insights and best practices on how to help your healthcare organization stay resilient to the potentially catastrophic situations that may occur.

Our speaker for this Webinar will be, Renata Elias, a consultant with Marsh Risk Consulting's Strategic Risk Consulting Practice. She is experienced in providing expertise and support to organizations in the development of crisis, emergency and disaster response plans, evacuation plans, crisis communications, and pandemic/public health plans.

### Discussion Topics

- Crisis management and reputational risk
- Best practices for emergency response
- Workplace violence and active shooter
- Cyber response management
